Dr. Robin Goldsmith, left, and Dr. Madeleine Guevara, center, represent St. Gianna Clinic to receive the Every Day Hero Award at the National Celebrate Life Conference. Michael Kenney, president of ProLife Partners Foundation, is the presenter.

Even after the overturn of *Roe vs. Wade*, our fight to protect the unborn and help mothers in need has only just begun. Students for Life advocates, sidewalk counselors, pregnancy resource center workers, and pro-life medical professionals are our Every Day Heroes in this fight.

At the National Celebrate Life Conference in June, the Celebrate Life Planning Committee awarded St. Gianna Clinic the prestigious Every Day Hero Award in honor of the clinic’s daily service to the pro-life cause. Dr. Robin Goldsmith and Dr. Madeleine Guevara accepted the award at the Celebrate Life Gala, which was held during the conference.

The Pro-Life Partners Foundation nominated the clinic for the award, saying: “St. Gianna Clinic provides whole person medical care every day. It is in this noble sense that we recognize St. Gianna Clinic as an ‘Everyday Hero.’”

Every day, St. Gianna Clinic strives to provide exceptional health care to all people – men, women and children – of all faiths and cultures, from conception to natural death. The clinic is

guided by a Catholic understanding of the human person, integrated with the science of medicine, to promote healthy living and hope for all.

Dr. Goldsmith is the president, chief medical officer, and co-founder of the clinic. She has practiced anesthesia in Northeast Wisconsin for nearly 20 years. She received the Pro-Life Wisconsin Activist of the Year Award in 2016; the National Catholic Medical Association's Distinguished Guardian of the Faith Award in 2019; and the Solidarity Pro-Life Innovator Award in 2022.

Dr. Guevara is an obstetrician/gynecologist who takes a holistic, Catholic approach to women's care. Dr. Guevara specializes in fertility awareness and family planning, obstetrics, high-risk prenatal care and deliveries, minimally invasive gynecologic surgery, robotic surgery, NaProTECHNOLOGY, and infertility care.

The pro-life physicians and staff at St. Gianna Clinic truly deserve the title, Every Day Hero. As they humbly serve their patients every day, they bring compassion and courage. They honor the sacredness of life, heal the suffering, bring life into the world, and guide patients to a fuller, healthier life. They are truly Every Day Heroes in the pro-life cause and in their patients' everyday lives.
